## It's A Red Hot Race For The Grand Prize 1950 Chevrolet Sedan

Rev. and Mrs. Robert L. Lee and their children, Linda Sue and Bob, are shown in front of the new Baptist rectory. The Baptist church purchased the Henry Colson home on Carroll avenue. Rev. Lee accepted the pastorate of the First Baptist church in February, and he preached his first sermon there on March 5.

A native of Mobile, Ala., Rev. Lee took his A. B. Degree at Mississippi College; he was graduated from this institution in 1945.

After his graduation, he matriculated at New Orleans Baptist Seminary, and has completed five years of residence work there. He will complete his thesis for his Doctor of Theology degree next year.

Mrs. Lee attended both institutions with her husband.

Mr. Lee was pastor at Edwards, Miss., for seven years, preaching there two Sundays a month; he also filled the pulpit at White Sand, near Prentiss, two Sundays of the month.

## Saturday Night Marks End Of Important 1st Period; Go Limit For Favorite

By BILL GUPTON (Contest Editor)

More general and concerted action has taken place during the last few days in the big "Everybody Wins" prize subscription contest than at any other time since the race began.

And, with honors almost equally divided between several contestants for leadership in the race, the "battle royal" now in evidence is attracting area-wide attention.

Hundreds of thousands—yes, millions of votes—were cast by the various contestants. First one, then, another, would hold sway for supremacy; battles were fought, won and lost, and the race waxed fast and furious.

### Hubbard Speaks At Travel Meet

Mr. L. D. Hubbard, manager of the Tivoli Hotel and representative of the Mississippi Agricultural and Industrial Board was the principal speaker at Bay St. Louis first travel promotion meeting Wednesday evening at 8 o'clock at the Bay High School auditorium.

#### DEVELOP RESOURCES

Mr. Hubbard spoke of the importance of the tourist business to a community such as Bay St. Louis. "The tourist business is as industry, and we should by all means do what we can to develop what natural resources are at our disposal."

"It is important to the community as a whole that every tourist who stops to do business in the community be treated in a most hospitable manner," he added. "You must treat him with courtesy, give him accurate information about your community, and make him feel that he would like to settle down and locate here."

The speaker stressed the value of educating the service trades to aid mercantile establishments in the proper handling of tourist customers. "Your community should by all means conduct a 'Travel Host School' because everyone will benefit if you can draw more tourist business to your area."

A second meeting, Mayor Warren Carver, who is chairman of the Travel Promotion Committee, announced, will be held Monday, June 12 at 8 p. m. at Bay High school auditorium.

### Citizens Plan Organization Meet; To Build Attractive Community

A group of local citizens, whose purpose is to work individually and collectively for a more attractive community, met Monday, June 5, with the Commission Council and asked for official recognition and support of their proposed plans and organization.

They plan, through community effort and cooperation, to arouse an interest in each property owner and tenant to make Bay St. Louis more conscious of its general appearance.

#### CLERMONT HARBOR

Mrs. J. G. Treutel's picture was not available for publication last week. She is one of the leading contestants in our Big "Everybody Wins" subscription contest.

### A Farm Accident Is Fatal For T. Conard

Thurman Rufus Conard, 50, was fatally injured in an accident on his farm 2 1/2 miles north of Kiln, on the Kiln-Poplarville highway, Monday, June 5 at 2:45 p. m.

Witnesses' account Mr. Conard who had resided here for a year and seven months, was pulling a stump on his property when the tractor over-turned, causing instant death. His wife witnessed the accident and traveled two miles to her nearest neighbor, Mrs. Myrtle Rohm, to report the death of her husband.

Sheriff B. D. Johnson, his deputies, Justice of the Peace M. D. Rutherford and Kenneth Whitfield of the Fahey Funeral Home responded to her call.

It was necessary to have a wrecker lift the tractor in order to remove his body.

Funeral services for Mr. Conard, who was a former resident of New Orleans, were held from the Jacob Schoen and Son Funeral Home in New Orleans Wednesday, June 7, at 10 a. m. with religious services at the Franklin avenue Baptist Church. Interment was in St. Vincent dePaul Cemetery.

The body was taken via auto hearse from the Fahey Funeral home to New Orleans.

Survivors include his widow; two sons, Lloyd and Gerard Conard; and his father, James M. Conard of Tennessee.

### Extension Subscriptions

Quite a number of people who subscribed to the Sea Coast Echo during the first week or ten days of our big "Everybody Wins" prize subscription contest have asked how they might further help their favorite contestant to win one of the biggest and best prizes.

Our answer is: Extend your subscription now to the "full five year limit"—thus giving your favorite the MAXIMUM number of votes allowed, and, at the same time, you, the subscriber, receive a full 6 months subscription FREE.

By so doing, your generous act would not only serve a double purpose but you could then enjoy the satisfaction of having done your full share in making someone very, very happy for a long, long time to come.

### Wool Growers Market Produce In Wiggins Fr

The South Mississippi Wool Growers Association held a meeting Friday, June 2, at the Court House in Wiggins, Mississippi, at 10 a. m. to sell the 1950 wool and select new officers.

#### PURCHASE WOOL

Adams and Leland, Inc., purchased the wool which will be loaded in Wiggins July 20, 1950. It will be loaded there because enough wool is not available to load a car in Picayune and Poplarville, therefore, the association thought it best to pool all the wool at Wiggins.

This year, wool sold for 60.30 cents per pound for white grease wool which means wool sheared from a white sheep that is not infected with burrs. Light white burry wool sold for 50.25 cents per pound; while black wool sold for 45.25 cents per pound. Lambs' wool brought 50.25 cents per pound. 40.25 cents per pound was the price paid for heavy, burry black wool.

#### ELECT OFFICERS

Following the sale of wool, the Association elected officers. The present officers and sales-committeemen were re-elected for another year. E. E. Brand was re-elected president; Vernon Brown, Stone County, vice-president; Howard F. Simmons, Hancock County Agent, secretary; Sebron Ladner and Otto Davis, Pearl River County, committeemen; O. J. Cuevas and Thomas Dosssett, Hancock County, committeemen, and J. B. Parker, Stone County, committeeman.

### K. of C. Elect Officers

The Pere LeDuc Council of the Knights of Columbus elected the following officers to serve for the year 1950-1951: Carl Arnold, Grand Knight; Henry Month, Deputy Grand Knight; Walter Fave, chancellor; Warren Buehler, warden; John Thomas, inside guard; Nolan Kingston, outside guard; Advocate, J. T. McCaleb, Jr.; Trustee, Dr. M. J. Wolfe; Clement Bontemps, recording secretary.

These officers will be installed Tuesday, July 4, 1950.

### Band Meets

The municipal band will meet on Monday and Thursday nights at 7:30 at Bay High, W. W. Ruscoe, director, announced.

## Another Forward Move

Over five hundred registered at the opening of the new Red Star Fish Market, Monday, June 5. Shown above in front of the new building constructed for the McDonald Realty Company, are C. C. McDonald, Jr., general contractor, Henry Colson, owner of the Red Star, and Claude Hooten, architect.

So closely arrayed are present leaders, in fact, it depends largely upon individual efforts of contestants and the unstinted support of loyal friends during balance of this week—while the MAXIMUM number of votes are issued on subscriptions—as to who will ultimately be winners of grand capital prizes.

#### ACTION NOW SPELLS SUCCESS

The crucial test is now at hand for potential grand prize winners! And this Saturday night will, to a considerable extent, tell the story. The matter of success lies entirely in the hands of contestants themselves. We can help you only by telling you how! Now is the time, unquestionably, to secure an unsurmountable reserve vote; now is the time to make reasonably certain of the prize you most desire.

Not to do so means that you will have to redouble your efforts during remainder of race to make up for lost opportunity. Just a good bunch of "full limit" subscriptions NOW might be the very ones needed to "cinch" that beautiful 1950 Chevrolet worth exactly \$2157.29 grand capital prize; they could hardly help but win one of the other major prizes or big cash awards.

#### ENTER PERSONAL PRIDE

A striking feature of the past few days is the personal pride that is becoming so noticeable. One contestant declared that to accept defeat would be a lasting disappointment and she doesn't want that to happen to her. Another says she owes it to her friends who have responded so promptly and wholeheartedly thus far to put forth her best efforts hereafter and to call upon every resource now until the finish—just three weeks from this Saturday noon—so that everything possible will have been done, AND NOTHING LEFT UNDONE? to better her chances to win.

Still another contestant expresses himself in this manner: "I want and need that new prize Chevrolet for my very own; and with the continued support of my friends, I BELIEVE I CAN WIN."

Others too, are just as determined to finish victorious and are setting appropriate action to words!

So, on the basis of "personal pride and supreme confidence in their individual ability to capture highest honors, the race is being waged zestfully.

Shielding lustre on this inspiring sight is the sectional spirit that is manifesting itself. This mighty factor is the bulwark behind the various contenders for high honors and attendant awards.

In short each section represented in this race is solidly behind their favorite and no "set or growl" that values its reputation for "doing things" is going to stand idly by and let another ride away in the most desirable prize when a little concentrated effort on the part of themselves and friends might change the picture and swing the prize Chevrolet to where they think it really belongs.

#### WHAT A DIFFERENCE

For this reason and for the reason that the difference between the grand capital prize of this contest and secondary awards in the matter of merely \$1,600 (quite a tidy sum in itself—not to mention the desirability) of this latest model Chevrolet a lively struggle among present leaders may be expected to acquire top honors.

The contest department will remain open this Saturday night until ALL contestants have reported in full after which time subscriptions received will be subject to the lesser "second period" schedule of votes.

Remember: IT IS THIS WEEK'S WORK that counts!

### Come To The Barbecue

A barbecue featuring good things to eat will be given by the Bay St. Louis Little Theatre at Dupuy's Ten Oaks Farm, Saturday, June 17.

The tickets entitle the holder to eat all he can for only \$1.50; drinks are not included in the price of the ticket. Mrs. Rene DeMontluzin, Jr., is in charge of advance sales.

Games and dancing will be the features of entertainment for the night.

## Observations...

By the Editor

A meeting was held at the City Hall the past week to discuss the organization of a group interested in making the city more attractive. This is a move in the right direction. It is to be hoped that local leaders will develop an interest in this movement, and that everyone will join the missionary movement to create a spirit of civic pride in their neighborhood.

The Hancock County Courthouse will be closed each Wednesday and Saturday afternoon. The first closing on Wednesday was last week. The law authorizing the Wednesday closing was passed by the last Legislature and the order was adopted by the Board of Supervisors at their May meeting.

One of the most modern fish markets in this section of the country was opened to the public last Monday afternoon, when Henry Colson held open house at the Red Star Seafood on Main Street. He and the McDonald Brothers, C. C. St. and John, the owners of the building, are to be congratulated. The plant is really a credit to this City.

Don't forget the Turkey Pie Supper, on June 13, to be given by the Christ Church Guild Circle No. 2. If you have not purchased your tickets call Mrs. John L. Griffin at 1193.

Church fairs will be held for the benefit of Our Lady of the Gulf Catholic Church at Bay St. Louis, and for St. Claire's Church at Waveland on Saturday and Sunday, July 1 and 2.

The Bay St. Louis fair will be held on the grounds of the St. Stanislaus Day School, and the Waveland fair on the church grounds. The Little Theatre is giving their annual barbecue at Ten Oaks Farm, the home of Mr. and Mrs. Walter Dupuy, on Saturday, June 17, 6 P. M. Tickets are \$1.50.

This will cover all you can eat. John D. Smith, State Highway Commissioner, has written Dan M. Russell, Jr., prominent young attorney of Bay St. Louis, acknowledging receipt of a petition signed by the people of Henderson Point, and we are indeed very happy to be able to quote Mr. Russell's letter to Mr. Russell.

"It seems that the sentiment is very strong in that area for the bridge to be built back in close proximity to the old one. It is our plans to build a four lane bridge, therefore we must have sufficient right of way in the City of Bay St. Louis for a four lane road. Our engineers will have this right of way staked at an early date, after which time

## "Three Men On A Horse" Is Forthcoming Production

John Cecil Holm's "Three Men On A Horse" will be produced at the Bay St. Louis Little Theatre Wednesday, Thursday, Friday and Saturday, June 21, 22, 23 and 24. Mrs. John Bell, director, announced.

#### CHARACTERS

Characters in the three act comedy, which had its first successful run in New York in 1934 and 1935, are John Bell as Erwin Trowbridge; Mrs. Jane Meyers, Audrey Trowbridge; Don McCulloch, Clarence; Dennis Tonkel, Patsy; Johnny Seafide, Charlie; Roland Hodges, Frankie; Mrs. Jo Ann Craft, Mabel; Paul Tourne, Harry the Bartender; George Fletcher, Moses the Elevator man; Dr. H. M. Keefe, Mr. Carver; Mrs. Betty Noble, Gloria the reporter; Walter James Phillips, Al the photographer; Mrs. Philip Allison, the maid; and Penny Cole, the delivery boy.

#### SCENERY CHANGES

This is the first play that the Little Theatre has ever undertaken that requires scenery changes. "Three Men On A Horse" necessitates a change of scenery six times during the whole play. These changes in back drops and furnishings were made possible through the cooperation of Mr. Herbert Wise who executed three entirely new sets of flats, with professional hardware, under the supervision of Mr. Reese Spangenberg, a professional set builder.

These new flats will enable quick and noiseless changes of scenery throughout the three acts of the play; while the scenes are being changed, Mr. Brown a Hammond organizer who is connected with Werlein's in New Orleans, will play.

the property owners will be requested to sign an option for said right of way. If it can be reasonably secured, I see no reason why we cannot comply with the desires of the people in Bay St. Louis and Henderson Point." Apparently the Commissioner is putting it in the lap of the people who own the property along the highway in Bay St. Louis. But remember John we still differ in opinion with your engineers as to the amount of right of way necessary. If the highway in Harrison County meets standard specifications, as you stated at the Rotary meeting, then it is not necessary to have 100 feet of right of way.

## SWIMMING PROGRAM BEGINS ON MONDAY

The American Red Cross, Hancock County Summer Swimming Program for beginners will start Monday, June 12th at 10 A.M. on Breath's Beach, with registration for the beginners class.

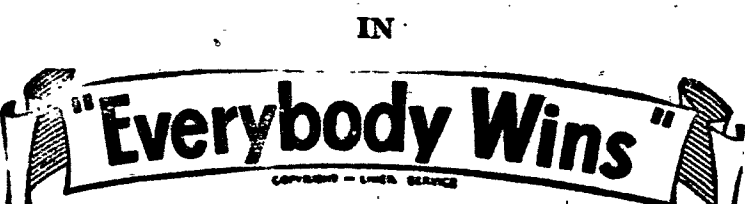

The instruction is free and the instructors are trained volunteers. In addition to the classes for children, there will be another for the adults who want to learn to swim. Bring the children and join the class yourself; everyone should know how to swim.

This summer program affords an excellent opportunity to the young people of the community to "waterproof" themselves by learning new swimming skills and

safety precautions, and at the same time enjoy a healthy recreational activity.

For further information call Mrs. L. A. Rogers, 177, Mrs. M. J. Langurand, 489-J, instructors or Mrs. J. B. Goldman, Water Safety chairman at 245.

## ARE WE ASLEEP

On several occasions we have suggested that the coast of Hancock County should be further developed into a vacation land; but when we stop and take an inventory of our surroundings just what do we have to offer. God-given beauties that should attract any passerby and lure them to stay here are abundant, yet there are many eye sores with weeds and debris in our cities and along our beach which create a bad impression upon any visitor in our midst. A little initiative on the part of our public officials and our businessmen, whose lives should be built around their community, is the cure.

Nature offers us many opportunities; but certainly it cannot work miracles. There must be some physical help, and each and every person should feel that it is incumbent upon them to aid in the care of our natural beauties.

Our beaches should be built up and could be made spots of relaxation which would offer many attractions for visitors. The people of Harrison County to the East of us are not asleep—they realize the potentialities of the tourist or vacation trade. Thirty miles of beaches will be built in the near future, and here in Hancock County it is impossible to even have one small beach—no one seems to care. No one will assume a leadership to bring about the most needed, and which in time may prove to be the most profitable, project ever suggested in this county.

And while on the subject of unsightly surroundings, we cannot overlook our little city—it is a shame to see litter and garbage scattered along the streets, particularly in some of the outlying sections; to see weeds along the sidewalks, where it is necessary to walk single file or take to the streets; to see landowners and homeowners who have no desire to keep their property clean and who with a little effort could make them into attractive spots. A little pride and some endeavor could work miracles in Bay St. Louis, and it would certainly pay untold dividends.

This past week a group of citizens have started work to organize, to work individually and collectively for a more attractive community, and the city council has pledged itself to give them their full support and cooperation by enforcing any city ordinance dealing with the cleaning up of property. This is a step forward, and these people are to be commended.

They alone cannot do the job, they need the wholehearted support of every person who has the welfare of Bay St. Louis at heart. There is much missionary work to be done. Urge your neighbor, if he is neglecting his property, to do his part—help make him civic minded.

We should realize our sister cities are not asleep, nor do they assume the nonchalant attitude we have in this section. We should awaken to our needs and strive to attain them. Forget the thought that public spiritedness and attention to civic matters are political, and bear in mind nothing will be accomplished until such time as we have united effort on the part of every individual.

Join hands, develop a pride in your community and work for its civic advancement. In return you will have a bigger and better Hancock County.

### Rosalie Carver Has 8th Birthday Party

Rosalie Carver, daughter of Mr. and Mrs. Ernest Carver of Wave-land, celebrated her eighth birthday May 30.

Those present were Mary Francis Yarborough, Kay Carolyn, Barbara Ann, Anthony Morreale, Jeffry, Vidaleir and Lonnie Carolyn and Loris Bourgeois, Pedro, Arthemese and Henry Noto, Alice Villere, Louis Herman, and Al Jacobi, Ashton, Barbara, Joy, Bobby and Ernest Carver, Jr., Loretta, Foster and Holden, and Mesdames Schultz, Ben Morreale, Yarborough, Margaret Bourgeois, Louis Jacobi, Jr., Allen and Herman Holden.

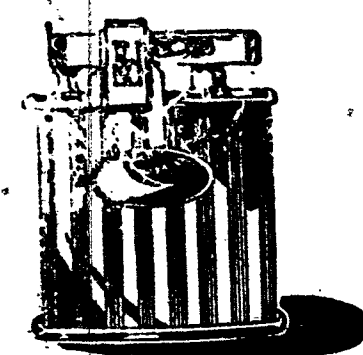

possible an exchange of students, bona fide journalists, and "pure" scientists. It is a well-known fact that employees of American legations in these zones, as well as in Russia proper, have been subjected to arrest and imprisonment, and that in some instances the legations are, in fact, almost completely isolated from adequate contacts with the people to whom the represent in the United States. This is certainly the case in Albania. The continued indignities put upon our representatives in the Russian-controlled zones of eastern Europe call for the strongest countermeasures to show that we do not intend as a nation to permit an entirely one-sided disregard of the diplomatic comity that should be observed by the free nations.

Again, we might, with, we hope, pardonable pride, point out that in that same report we called the Government's and the country's attention to the necessity of stopping the shipment of our technical know-how and strategic war materials to Russia. Subsequently we had amendments adopted to Marshall Plan bills on the floor of the House which would have stopped this, but which were later deleted in the Senate.

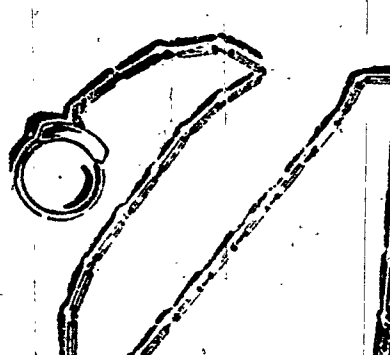

It is encouraging to those of us who made a study of this situation five years ago in Russia and several European countries that the Administration has come around to this point of view and that we are now screening shipments to Russia and her satellites. The one criticism, therefore, that we can have of the Administration's present policy in dealing with Russia is that it has adopted that firm policy, which we advocated five years ago, rather belatedly.

## Bay Semi Pros Troupe Teen-Age News

Pascagoula Sun. 8-0

Buddy Pitolo pitched brilliant ball Sunday to gain his first win of the season. He allowed only three hits and struck out eight men. He started off rather shakily by walking the first two men to face him, but catcher Red Hodges threw them both out at second. He was never in serious trouble after that.

The Bay scored in the first when "Bennie Ray" Nobles got on and scored from first by virtue of a wild throw by the catcher. They added four more in the sixth and three in the eighth. Pitolo helped his cause with a triple and a single to lead the Bay in the hitting department. Morreale, Nobles, and Hodges also played good ball for the Bay.

## Heistand Addresses Pass Rotary

The Rotary Club met Tuesday noon at the Miramar Hotel with Rand Jones, incoming vice-president, presiding. Mr. O. R. Heistand, who is with the Animal Trap Company of America, was program chairman. He gave a talk on the trapping business and furs.

Mr. Heistand informed the group that a new animal has been imported and brought to Louisiana. It is popularly called the Nutria. This animal eats the top of the grass while the Louisiana Muskrat eats the bottom and the program of raising the two together, the speaker said, is working out well. He added that Louisiana sells more furs than any one Providence of Canada.

Visiting Rotarians were Howard LeTissier, Henry Osolnach, Ben Hille, from Bay St. Louis, and Col. Lewis, from West Point Academy, New York.

## Local Talent Gives Benefit Show

The benefit variety show held in the Pineville school auditorium Tuesday night, June 6, was a success.

Harold Lassere introduced the master of ceremonies, Jimmie Jessup, who along with the other Jessup brothers and Dorothy King furnished music and novelty songs, and the Ink Spots. Others taking part in the program were Keith Trille of Gulfport, rendering several selections on the accordion; Jewel Peterman who sang a Dinah tap dance; Little Kay and Freddie DeMetz, tapping the ever-popular arrangement of "Me and My Shadow"; Ruth Ann Gauthier performed an acrobatic dance; Beth Williams and Sylvia Ander-

son, dressed in 1920's garb, danced the Charleston and Can Can to "Bourbon Street Bounce"; the Pineville trio sang, "Have I Told You Lately That I Love You"; Joan Jessup danced the Hawaiian hula; Freddie DeMetz, in western dress, sang "Red River Valley"; Harry Cochran gave an imitation of Bob Burns, the Arkansas traveler; and sang "Lucky Ole Sun"; Victoria Lassere, Kate Dubuison and Glen Parker gave a black face skit; Keith Trille sang "There's A Hole in the Old Oaken Bucket," performed a difficult tap dance and baton twirling act followed by the grand finale.

The proceeds of the show went for the benefit of Our Lady of Lourdes Catholic church in Pineville.

## Mullican-Yarborough Wedding Celebrated Sat. June 3

Miss Virgil Henrietta Yarborough, daughter of Mr. and Mrs. Joseph J. Yarborough of Pass Christian, and Sgt. Edwin James Mullican, USAF, son of Mrs. Heshel E. Williams of Burnsville, Maryland, were united in marriage at St. Paul's Catholic church Saturday morning, June 3, at 11:30. Rev. Father J. P. McGlade officiated at the double ring ceremony.

Nuptial music was played by Mrs. Lelia Courtenay, organist; and Mayor Francis J. Hursey sang "Ave Maria," and the choir sang "Heart of Jesus hear" and "Mother Beloved." Proceeding the ceremony, Mrs. Courtenay played the wedding chorus from Lohengrin as a processional and Mendelssohn's wedding march for the recessional.

The bride, who entered the church with her father, wore a wedding gown of white organdy fashioned with a high neckline with a small rounded Peter Pan collar; rows of embroidery across the bodice and cap sleeves. The bouffant skirt ended in a long train. The fingertip veil of illusion was held in place on the bride's head by orange blossoms. She carried a cascading bouquet of Fleur d'Amour and Stephanotis centered with a white orchid.

Attendants to the bride were Miss Ethel Ann Yarborough, a sister, as maid of honor, and Mrs. Guy Bufkin, bridesmaid. They wore floor length gowns of pale pink and green organdy and carried bouquets of daisies and wore coronets of daisies in their hair.

Sgt. Charles Laird was best man, and Sgt. Eugene Robertson was the groomsmen; Mr. Eldridge Helwick was an usher.

Immediately following the ceremony, a reception was held at the city limits.

A hospitality program was adopted and a courtesy committee, composed of Mrs. Martin Farrell, Mrs. Farnell McKay, Mrs. Robert Cagle and Mrs. William Simpson, was appointed.

The next regular meeting is scheduled for Tuesday night, June 20th.

# Liberty Bell Rings for Freedom

The replica of the historic Liberty Bell which visited our city Monday was met with interest by a number of citizens.

The program was in charge of the Clement R. Bontemps, Post 139 American Legion; Mayor Warren Carver was master of ceremonies.

Seated on the platform at the county courthouse were the city commissioners, C. J. Glover and S. J. Ladner; president of the Board of Supervisors Ed. Ortle who made the address of welcome; Leo Fori, Postmaster and chairman of the local Bend Sale. Mayor Carver presented Vincent

Garden, Biloxi, American Legion State Director Veterans Service Committee.

Mr. Garden referred to the four freedoms of Franklin Roosevelt's day and said the four freedoms of today are Freedom of Religion, Freedom of the Press, Freedom of Speech and Freedom of assembly and illustrated these four freedoms by the group meeting to view "the bell"; how the papers had a right to comment on such occasions; that he had a right to make his own address without consulting anyone as to what he would say; that we sometimes carried the freedom of re-

ligion too far but that our people had the liberty of worshipping God as we felt; and freedom of Assembly was exemplified in the gathering.

Throughout his talk he stressed the great need of being prepared for attack from any country; this can be done through man power and financial aid. He closed by saying "Let us come to the aid of the greatest country in the world. Buy Bonds."

## S. J. A. Graduates 23

The ninety-fifth annual commencement was held at St. Joseph Academy Saturday evening June 3, at 8 o'clock; twenty-three graduates received their diplomas from Most Reverend Richard O. Gerow, D. D., Bishop of Natchez. The high school chorus sang "Spring Greeting" by Strauss-Bliss; they were accompanied by the St. Stanislaus band who also played Magna Overture by Messang, and the music for the professional and recessional.

Jacquelyn LaNasa gave the salutatory, and Lydia Benigno the valedictory. Right Reverend Herman J. Jacobi, Assistant Pastor of St. Theresa's church in New Orleans, addressed the graduates. The Class of 1950 sang "O Alma Mater."

Aline Bermond, Margaret and Rita Boh, Joanne Bontemps, Carol Carver, Mary Jane Green and Sylvia Ladner received awards for having attended St. Joseph Academy during their grammar and high school years.

The All-S. J. A. Jan cup, awarded to the high school girl who is outstanding in deportment, loyalty, dependability, character and scholarship, was merited by Lydia Benigno, Mary Jane Green, Jean Guthrie, Jacquelyn LaNasa, Sheila Mitchell, Louise Piazza, Beryl Rodriguez and Regina Schmidt and was awarded to Lydia Benigno.

Jacquelyn LaNasa received the all-S. J. A. Jan cup awarded to the boarding student who proved herself outstanding in all characteristics.

For perfect attendance during the four years of high school, a special recognition went to Lydia Benigno and Elizabeth Ann Grant.

Special mention was made of Lydia Benigno, who, living at Long Beach, never missed one day of school. Part of the time she walked the distance from the bridge to school in the morning and afternoon and was rarely ever tardy.

Members of the graduating class were Gertrude Saucier, Joanne Bontemps, Louise Piazza, Peggy Ann Morgan, Sheila Mitchell, Hope Crasto, Sylvia Ladner, Diane Reeder, Regina Schmidt, Barbara Jean Guthrie, Carol Carver, Mary Aline Bermond, Rita Boh, Lydia Benigno, Mary Jane Green, Louise Bridge, Margaret Boh, Ernestine Christ, Joyce Ansardi, Beryl Rodriguez, Beatrice Favre, Elizabeth Ann Grant and Jacquelyn LaNasa.

## 1951 ACP SHAPING UP

More directly fitting conservation practices to the needs of the individual farm and continued striving for more conservation for each dollar of allocated funds are major objectives of the 1951 Agricultural Conservation Program now being developed, says C. L. Neill, Chairman of the Mississippi PMA Committee.

As in the past, the recommendations of individual farmers, local county and community committees together with the advice of agronomists and soil technicians are the basis for next year's program. The conservation needs of individual farms and the selection and grouping of practices to meet these needs are being particularly stressed, the chairman advises.

Conservation practices for land taken out of all cotton crops are receiving major attention and the seeding of "diverted acres" to grass and legumes will be emphasized in the program the chairman advises.

Particular consideration also is being given to the gradual withdrawal of assistance for recurring annual practices as they become established in farm operations.

**PARTNERS IN CONSERVATION**  
"A nation cannot continue to bleed its agriculture without developing a national anemia. When agriculture is weak and sick—both land and farmers—production drops off and people go hungry. It has happened in other countries. It can happen here. So by assisting farmers in carrying out conservation practices the nation is feeding back into its own bloodstream and the red corpuscles of life and health and happiness."

The statement was made by Alvin V. McCormack, Director, PMA Agricultural Conservation Programs Branch, at the recent annual Virginia PMA Conference for farmer-committeemen.

He pointed out that the very abundance, which is so essential to the welfare of the Nation, often wrecks the farmer's price and the farmer finds he is "producing" himself out of house and home.

He likened the conservation program to national defense: "just as it is in the national interest to protect ourselves against enemies which seek to destroy us with bombs and guns and ships, so it is in the national interest to protect ourselves from the enemies which surely destroy us by destroying agriculture with erosion and deterioration and bankruptcy."

Referring to today's challenges of what to do with this land taken out of cotton crops, he said, "Conservation of our soil and water resources is as vital as ever to the national welfare—despite surpluses of some farm crops—and we don't want to forget that as population becomes more and more

important. The 150 million population now may be 180 million in 20 or 30 years."

## HIGH PENALTY ON EXCESS COTTON

The penalty rate for cotton produced in excess of farm marketing quotas in 1950 will be 50 percent of the parity price as of June 15, 1950, Mr. Randolph Seal, chairman of the Hancock County PMA committee, said today. The parity price on April 15 was 30.26 cents per pound.

"We would like to bring to the attention of all cotton growers that the penalty may be around 15 cents a pound," says the chairman. "This compares with a penalty of 7 to 8 cents a pound under previous quota programs. The 15-cent penalty is based on the assumption that the actual cotton yield per acre is less than the normal yield, the farm marketing excess will be reduced to the amount by which the total production exceeds the normal yield times the farm cotton acreage allotment."

In cases where the farmer establishes that the actual cotton yield per acre is less than the normal yield, the farm marketing excess will be reduced to the amount by which the total production exceeds the normal yield times the farm cotton acreage allotment. The penalty must be paid before a marketing card can be issued to a farm. In addition, the farmer who knowingly overplants the farm cotton allotment will be ineligible for cotton price support and also for any agricultural conservation payment for the farm.

Almost everybody has a good word for the immensely popular Pontiac. The most enthusiastic spokesmen are those who own this great car. The facts behind this admiration of Pontiac are very simple—

Pontiac is America's lowest-priced Straight Eight. Pontiac is the lowest-priced car with GM Hydra-Matic Drive. Pontiac is the

most beautiful thing on wheels. And Pontiac is famed everywhere for its dependability and economy.

Those are the facts, and they are impressive. But they are a lot more impressive to the person behind the wheel of a Pontiac. He knows for sure that dollar for dollar, you can't beat a Pontiac.

From where I sit... by Joe Marsh

## Oh—My Aching Feet!

Other night just as I was settling down with a book and a mellow glass of beer, the wife calls down, "Joe—I almost forgot—you and I are going over to the High School and take dancing lessons!"

Now, I can waltz with the best of them, so I put up a quiet struggle against going but it was no use. Turns out it was the class in square dancing. And from the look on some of the other men I judged I wasn't the only one there who had been taken by surprise!

Miss Williams and Curly Lawson taught us what to do with our feet, and before it was over,

darn if I wasn't actually enjoying myself. Going back next week, too!

From where I sit, we sometimes get an idea into our head for or against something and then hang onto it for dear life. Whether it's square dancing, or the right to enjoy temperate beer or ale now and then, we owe it to ourselves as Americans to take an open-minded attitude—that's even after we make our minds about it!

BUT CAN IT BE FOUND  
IN THE BIBLE?

People often indignantly demand that Catholics prove their teaching from the Bible.

The Bible is their "rule of faith"... and they argue that every man has the right and ability to discover for himself, by his interpretation of the Bible, what he must believe and do in order to be saved.

We do not question the sincerity of these people and we applaud all who strive earnestly to understand and observe the Scriptures. But—are they right in calling the Bible, privately interpreted, the sole source of Christian teaching?

"Hold the teachings that you have learned," wrote St. Paul, "whether by word or by letter of ours" (2 Thess. II:15). He refers to Christian teachings, some oral, some written... and demands that all be received.

Christianity did not begin with the Bible. It began with the coming of Christ. The Lord instructed His Apostles to "go forth... teach all nations"—and to insure that His truths would always be maintained, Christ established His Church, "... the pillar and mainstay of the truth" (1 Timothy III:15).

The last part of the Bible... written by St. John... was not completed until 60 years after the Crucifixion of Christ. There was no Bible in anything resembling its present form until nearly 400 years after Jesus had died on the Cross. And the widespread distribution of the Bible as we know it today was impossible until the invention of printing, some 1400 years after the Savior's death.

By what "rule of faith" did the

millions of Christians live during those 1500 years?

The answer is, of course, that the teaching of the Church was the rule of faith for the Christian world. And St. Paul reminds us that Christianity came from "one Lord, one Faith, one Baptism" (Eph. IV:5). "God is a God of peace, not of disorder." St. Paul said further (1 Cor. XIV:33):

Yet today we have nearly 300 different religious denominations in the United States, all calling themselves Christian... all professing the Bible as their rule of faith... and all differing to some extent or another in their understanding of what the Bible means. Could Christ have left a "rule of faith" that would permit such confusion? Would He have left the interpretation of His Word to the fallible and changing judgments of men—when our very souls depend on a correct understanding and observance of the things Christ has taught us?

Because this question is all important... because it certainly does matter what a man believes... we invite you to examine the rule of faith of the first Christians—a rule that is still maintained by the Catholic Church. Because the Bible is God's Word, and because He gave it to us for a purpose, we invite you to see what this purpose is. We have an interesting pamphlet on the correct use of the Bible, and we offer it for the inspection of all who are sincerely interested in following the teaching of Christianity as Christ revealed it. Ask for Pamphlet No. 13—KC.

## HOME AGENT'S NOTES

## Reducing Is Answer To Clothes Problem

By MISS MADGE ALLRED

Are you one of the women who are finding their summer dresses a bit tight as well as long. If you are, you'll be particularly interested in the nutritionists' advice concerning control of weight.

If you are under 20 years old, don't try to reduce except under a physician's guidance, they advise. This is also advisable if you are a young mother, or have anything wrong with heart or other organs.

If you are not in these groups, and need to reduce, take it slowly. A pound or two a week is plenty. To reduce calories without starving your body of its other needs.

Eat three meals a day, but don't be tempted by between-meal snacks.

Avoid high-calorie foods like fat on meat, cooking fat, salad oil, fried foods, gravies and rich sauces, nuts, pastries, cakes, cookies, rich desserts, candies, jellies and jams. Eat a variety—yes, potatoes, too. A medium-sized potato has no more calories than a big orange or a big apple. But take fruits and vegetables straight—vegetables without cream sauce or fat, fruit without sugar and cream. Don't skip on protein-rich foods, for you need plenty of lean meat, milk and eggs.

If you are underweight, you need to turn the tables to put some fat on your bones. You need three balanced meals, as overweights do. To those meals, you can freely add the extras shunned by the weight reducers—such as rich gravies and desserts, salad dressing and jams. And you can well take over extra food as between-meal snacks.

## BUY SHOES WITH CARE

Here are five points you will do well to follow as you buy shoes. You will have comfortable feet as a result.

1. Be sure the shoe is long enough. There should be one-half inch space between the end of the big toe and the end of the shoe inside. Measure your foot in both a standing and a relaxed position and buy shoes no more than one-fourth inch narrower than your foot.

2. The inner line of the shoe should be as straight as possible, so the toes can lie in a straight line.

3. The joint of the ball of the foot should rest at the widest part of the sole. This will help the foot act as a weight distributor and support for your body.

4. Allow plenty of room for the toes to avoid corns and bunions and prevent tears of shoes and hose from wearing out.

5. Be sure the shank of the shoe fits snugly under the arch of the foot.

Avoid leathers that are non-porous. They prevent evaporation and sometimes irritate the foot.

A shoe should be low-cut around the ankle to allow for free movement and good circulation, but should fit up well around the heel so it will not slip.

A broad heel not over one and a half inches high is the best support for the natural heel of the foot. Select this for general wear.

Higher heels may be worn for social occasions. However, a high heel for general wear eventually destroys the natural poise of the body.

## Kindergarten Graduates

Nine Wednesday, May 31st

Nine children were graduated from the Christ Church Parish Kindergarten Wednesday, May 31, at 9:10 a. m. The children wore white caps and gowns and received certificates of completion of the kindergarten course, signed by Rev. C. K. Johnson and Mrs. W. E. Bartram, teacher.

The following was the program: prayer, Kindergarten hymn; students, friendly trees; the graduates; duet: Marie Rausch and Elizabeth Oliver; Ten Little Indians; Rhythm Band; nursery rhyme medley; the kindergarten; presentation of diplomas: Rev. C. K. Johnson.

Members of the Class of 1950 were Jodie Brennan, Linda Cohen, Charles Esau, Robert Hamilton, Jack Honecker, Marc Langrand, Donald McCulloch, Elizabeth Oliver and Marie Rausch.

The school, which has been in session for four months, enrolled 25 pupils. A first grade department will be added to the school next year.

## Beware of Accidents!

According to the Red Cross Accident Prevention Service, accidents in the home are becoming far too prevalent a custom.

Now that vacation is here and most people are planning for a summer trip, it may be wise to check up on these timely hints.

Keep stairs and landings always free and train the family to cooperate. Falls account for more than half of the 33,000 home fatalities, every year.

Inspect floors and stairs and repair immediately, if they are defective. Paint the bottom step of the basement stairs white, to prevent falls. Place light switches at the top and bottom of the stairs.

Eliminate fire hazards by cleaning up all the rubbish piles. Take a look at the attic too and reduce hazards there. Never smoke near highly inflammable substances in storage, attic or closets.

Use non-flammable, non-poisonous and non explosive cleaning fluids. Avoid fire hazards by destroying rags used in applying wax, oil or cleaning mixtures.

Clearly label poisonous cleaners and keep them out of reach of children.

If house cleaning is a family job, remember that elderly persons and children should not undertake duties involving reaching and lifting or carrying heavy and cumbersome objects.

Above all remember safety is part of the year round house-making job. Safe living depends on the cooperation of everyone in the family and on a continuous program of accident prevention.

## COUNTY AGENT'S NOTES

## Use Of Insecticides Control Flies

By Howard F. Simmons

## FLY CONTROL

Flies can be controlled around any farm by the proper use of insecticides which are available. But no one insecticide will control house flies over a long period of time.

If DDT or methoxychlor are not giving satisfactory control because the flies have become immune, use either lindane, benzene hexachloride or chlordane.

In the dairy barn, the spray program is limited to lindane and methoxychlor. Use either one pound to 125 percent lindane wettable powder to each 12 gallons of water, or one pound of 50 percent methoxychlor to three gallons of water.

For barns and outbuildings other than dairy barns, use any of these spray materials.

Prepare spray with one pound of wettable powder to three gallons of water for either six percent gamma benzene hexachloride, 50 percent DDT or 50 percent methoxychlor. With lindane, use one pound of 25 percent lindane to 12 gallons of water.

Best results are secured by using either benzene, hexachloride, lindane or chlordane, then alternating the spray program with DDT or methoxychlor.

## TOP DRESS CORN

It takes nitrogen in large amounts to really make corn.

Top dress enough to bring the total nitrogen, including that in the mixed fertilizer, up to 100 pounds of nitrogen per acre.

Abushe of corn can be produced with every two to two and one-half pounds of nitrogen used, up to about 100 pounds of nitrogen per acre, research in Mississippi has found. This can be expected if phosphorus and potash needs are satisfied, there is a good stand of corn and good management is used.

Two and one-half pounds of nitrogen can be purchased for about 30 cents. Would you pay 30 cents for a bushel of corn?

It is necessary, of course, to put out the nitrogen and to harvest the extra corn. But the other work is already done.

## SUMMER PASTURES

Good pastures can be had in the summer by carrying out a few simple rules.

First, do not overgraze. Overgrazing is the cardinal pasture sin in the South.

Running the mowing machine three times during the summer is the second rule.

Once each week, alternate grazing from one area to another in rule three. Use the electric fence to divide grazing into smaller areas.

Fourth, do not let bushes, briars and weeds take up moisture and fertilizer needed by grass and clover.

It is easy to do many pasture tasks, as some good management practices can be done on the way to or coming from other farm work.

For example, while on the way to the field in the morning or after dinner, turn dairy cows into the Sudan or millet area for a two-hour grazing period. Most farmers go through or by the pasture every day on the way to the field.

Grazing is usually good this month, but check up and see if too many livestock are on the pasture for the summer ahead. It takes two or three times as much

## \$20,000 Is County Savings Bond Quota

County quotas in the Independence Saving Bonds Drive, which opened Monday, May 15, and will run thru July 4, were announced recently by Rex I. Brown, State Advisory Chairman. The campaign features the Liberty Bell as its symbol and "Save For Your Independence—Buy U. S. Savings Bonds" as its slogan.

Explaining the purpose of the drive, Mr. Brown said: "I think all of us realize the benefits of saving regularly for our own good. Savings in any form serve as a stabilizing force for business and industry—and that means steady jobs and full employment, which helps everybody."

## TIMELY SLOGAN

"The slogan of this bond drive: 'Save For Your Independence—Buy U. S. Savings Bonds,' is very timely. The question of providing for old age has been very much in the public mind recently—pensions in private business and industry, as well as broadening and increasing social security. Many of us have no such protection, and many who have, will not have enough to make them independent. By putting away part of our earnings regularly, we can build up monthly incomes to supplement social security or pensions so we can be independent of relatives or public assistance or charity. That is not possible for everyone to attain, but it is possible for many more Americans than are now saving to provide it for themselves."

## BOND SALE INCREASES

"Individual liquid savings are about \$200 billion, or about four times what we had before the war. Individual Americans today hold over \$48½ billion worth of Savings Bonds, and over \$34 billion of it is in the Series E Bonds that most of us buy and hold. Mississippians have more than \$317,000,000 in Savings Bonds. Our bond savings in the nation have increased over \$5½ billion since the war's end—"E" Bond holdings alone have increased over \$4 billion."

"That speaks very well for the Savings Bonds program—and the thrifty Americans who take advantage of it. Upwards of 8 million of us are saving something each payday through the Payroll Savings where we work. Others are using the free service of the Bond-A-Month plan, where they bank. Still others buy bonds at their banks and post offices. Hancock County's quota is \$20,000 in "E" Bonds. To reach our objective it will take the combined efforts of many individuals doing their part."

## Cardinals Hold Try-Out Camp

Biloxi, Mississippi, Biloxi High School will again be the site for the St. Louis Cardinal baseball try-out camp on June 15th and 16th, the St. Louis Cardinals have announced. The camp is to be conducted at the Biloxi High School field, and has been brought here through the efforts of Anthony V. Ragusa of the local Chamber of Commerce.

Workouts will be under the supervision of Cardinal scouts Bud Lewis and George Sisler, Jr. The try-outs will get underway at 11 o'clock each morning and continue until three or four o'clock in the afternoon. The feature of the two day camp will be games between teams made up of those boys attending the workouts. The scouts will give each player consideration as they take their turn during the games, both at bat and in the field, and also watch the aspirants go through their infield and outfield paces. Sisler and Lewis will also give careful consideration to the pitchers, looking for any future major league prospects.

The try-out is open to all players between the ages of seventeen and twenty-three who have aspirations toward a professional baseball career. Those who plan to attend are requested to bring their own baseball shoes and gloves, and if possible their own uniforms—such equipment is not supplied by the Cardinals for their trial camps. If any player is signed to a minor league contract for any of the 21 minor league teams which the Cardinals operate, expenses which he may have incurred incidental to attending the try-out camp will be refunded.

## Your State Health Officer Says

Editor's Note:

This is the last article in a series on heart disease from the state Health Department.

Continuing the series of remarks on heart disease control, it should be said that high blood pressure over long periods of time denoting hypertension is merely a symptom, a physical finding, of the baffling underlying condition. Often, in the early stages, it is the only indication. There are many who go through life unaware or untroubled by it. In other cases, however, as hypertension progresses, there is an increase in symptoms. There are warning signals that hypertension has begun to affect important organs such as the heart, kidneys and blood vessels.

Middle-aged people often have complaints of early morning headaches, dizziness and weakness, shortness of breath, as well as increased frequency of urination.

While these symptoms may be due to factors—or may even prove of no significance—they may also be indicative of destructive changes occurring as a result of hypertension. Any neighbor or pharmacist having such a complaint made to them should unhesitatingly recommend that such a person should be aware of those who promise cure and know that early treatment and medical care by a competent physician will not only help relieve distressing symptoms, but will give the heart that is not abused, that is sensibly restricted in its range of activity and which is aided by medical care and supervision will hold up much longer.

People live for many years with high blood pressure under competent medical supervision provided they cooperate with that competent physician by carrying out the doctors' orders to a letter.

Highway Department  
Abolishes Road Divisions

Jackson, June 6, (Special) — The State Highway Department has done away with its "primary and urban roads division" and created an over-all construction division to handle all road engineering work.

**ABOLISHED IN CHANGE**  
Also abolished in the change was the "secondary and rural roads division," which formally dealt in roads not designated on the primary system.

The changes became effective June 1st. The constructive division will handle all highway engineering other than bridge work, which will be carried on by the bridge division, it was said. Prior to early 1949 all road work had been handled by the construction division. Last spring when the Bureau of Public Roads made a division between primary and secondary roads, the Highway Department also divided its construction office for the sake of coordination.

**REDUCES ACTIVITIES**  
Establishment of a state aid division, as was done in last year's special session of the legislature, to handle most of the rural road projects, will reduce some activities of the old secondary roads division of the Highway Department, it was said.

It was also pointed out that all state aid road development will be designated by county supervisors and controlled by the state aid engineer as a separate division. All other roads and highways, not controlled by city officials and supervisors will be handled by the construction division of the State Highway Department.
